

Muhammad Yahya Nawir

Senior 3D Artist Visualizer
Indonesia | muh.yahya.nawir@gmail.com |

Career Summary

I have 10 years of solid experience in architectural 3D visualization, with a professional background spanning architecture and creative 3D companies across Asia and the Middle East, including Brunei, Malaysia, Qatar, and the UAE. Most recently, I worked as a Senior 3D Artist in the Landscape Division at PNC Architects, Sobha Realty, where I led a team of 10 artists delivering 3D visualization projects for development, marketing, competitions, and corporate portfolios. I specialize in transforming architectural and landscape concepts into high-quality photorealistic imagery through advanced lighting, materials, composition, and artistic post-production techniques.

Professional Experience

PNC Architect, Sobha realty - Senior 3D Visualizer December 2024 - May 2026
On site, Dubai UAE

- Led a 10-person 3D team to deliver 100+ high-quality landscape and architecture hyper-realistic renderings for luxury Sobha Realty projects within one year, driving successful project launches, development stages and marketing campaigns.
- Integrated AI enhancement tools, developed reusable render templates, project tracking timeline, and built custom 3D asset libraries to elevate visual quality and maintain consistency across all renderings.
- Streamlined workflows and actively coordinated with project managers, architects, and cross-functional departments to ensure maximum rendering accuracy and timely delivery aligned with strict deadlines and billing cycles.

X-Architects - 3D Visualizer June 2024 - November 2024
Remote, Dubai UAE

- Collaborated effectively with senior 3D and architecture teams in weekly meetings to solve design and visual challenges.
- Delivered high-quality interior and exterior renders consistently, meeting strict client expectations and brand standards.
- Managed tight schedules to ensure all rendering assignments were completed on time.

Pitrees Sdn Bhd - 3D Artist July 2022 - May 2024
Remote, Kuala Lumpur Malaysia

- Developing and Producing Impressive 3D visualization of still images and animation for real estate, mixed use building, landscape, hospitality, retails, events and interior projects.
- Improving company presence and reputation as a one of leader of creative technology company in the past 2 years by producing high quality works and on time delivery.
- Working under project coordinator supervision, active involvement to communicate work progress to improve project quality and delivery.
